

Willowed Whispers

Walking Home

We're going for a slow stroll around the wetlands, ending at my apartment. You will hear my footsteps. At first, the sound level is hushed, with only a few distant birds. Then, it gradually builds to full volume with a passing motorcycle. So, adjust with care and enjoy the walk.

This panel is hidden after folding

INSTRUCTIONS **Print on 24 lb. paper.** Cut on dots, fold on hyphens. **Begin** with bottom edge, cutting only enough below the dots so that they remain visible for when you later trim the sides. **Then** cut just above the top-edge dots in a similar manner. **Next**, align the hyphens over the sharp edge of your paper cutter and use finger pressure to score the three folds. **Finally**, trim both sides on the dots. **Fold** into a triangle, with the fourth panel behind the first. Use two small pieces of double-sided tape to hold it together.

WALKING HOME

The 13-minute walk begins about 200 feet south of the footbridge across the Spring Run creek, on the side near Midrise. The birds are very hushed at the beginning, but the sound level rises thereafter and ends with a passing motorcycle. This recording sounds wonderfully realistic when played through a high-fidelity audio system and you are sitting on the midline of the speakers.

Minutes

- 0.0 Very quiet beginning. Only distant birds are heard.
- 0.5 You will hear my footsteps on the paved path.
- 1.0 Climbing the path east of the wetlands.
- 2.5 Red-winged Blackbirds are protecting their territory from trees.
- 3.5 Many House Sparrows are feeding in nearby bushes.
- 4.0 Now walking quietly on grass, following bushes and evergreens.
- 4.5 Approaching the first fountain in the Midrise pond.
- 6.0 Path branches along road in front of the Cultural Center.
- 6.6 Turning left, passing second fountain in pond.
- 7.0 Walking near railings across from the Cultural Center.
- 7.5 Motorcycle leaves Meadow Ridge parking lot.
- 8.0 Several automobiles pass and hit the bump.
- 9.0 Turning left along Building H.
- 9.3 Robins are active in the trees along the path.
- 10.0 Walking down the hill, with Spring Run pond on left.
- 11.7 Crunching on gravel beneath elevated walkway.
- 12.4 Using fob to unlock door, then opening second door.
- 13.0 Home at last.
