

## Willowed Whispers

*Mockingbird*

*This year, none of our Mockingbirds sang the usual three-times pattern, and this is the best capture so far. Listen first to the actual song, then once again at one-fourth the speed. There are also many short calls from another bird in the same pine tree.*

This panel is hidden after folding

**INSTRUCTIONS** **Print on 24 lb. paper.** Cut on dots, fold on hyphens. **Begin** with bottom edge, cutting only enough below the dots so that they remain visible for when you later trim the sides. **Then** cut just above the top-edge dots in a similar manner. **Next**, align the hyphens over the sharp edge of your paper cutter and use finger pressure to score the three folds. **Finally**, trim both sides on the dots. **Fold** into a triangle, with the fourth panel behind the first. Use two small pieces of double-sided tape to hold it together.
